

St Paul's CE Primary School Health and Safety Policy

Health and Safety Policy for St Paul's CE Primary School

Introduction

It is a requirement of the Health and Safety at Work Act 1974, that all employers employing more than five people, must prepare a written health and safety policy. The policy should contain:-

1. a statement of the philosophy relating to health and safety at work signed by the most senior person within the organisation. i.e. the Chair of the Governing Body;
2. details of the organisational structure i.e. who is responsible for what, and how they fit in with each other; and
3. details of the arrangements in place for putting that policy into practice e.g. first aid arrangements.

The law also requires the employer to ensure the health and safety policy is brought to the attention of all employees

A health and safety policy also demonstrates the employer's commitment to health and safety issues and how those issues can be managed.

The policy must be reviewed on a regular basis, usually annually, to ensure that it is effective and adequate. Health and safety requirements may change due to changes in legislation or the introduction of new technology for example, and therefore the policy must be altered to accommodate the changes enabling them to be incorporated into the management system.

A model health and safety policy that may be adopted by schools is illustrated over the following pages. This model policy has been prepared by the Health and Safety Team incorporating previous model policy data produced by the Occupational Health and Safety Unit. Contributions were also received from both Mather Street Infants School, Oldham and Crompton House C.E school, Oldham. The model closely follows the guidance leaflet entitled '*Stating Your Business – Guidance on preparing a health and safety policy document for small firms*', issued by the Health and Safety Executive (Leaflet ref: INDG324) and DfES guidance.

Health and Safety Policy Statement

Health and Safety at Work Act 1974

This is the Health and Safety Policy Statement of

St. Paul's CE. Primary School, Nevile Road, Salford, M7 3PT

Our statement of general policy is:

- to provide adequate control of the health and safety risks arising from our work activities;
- to consult with our employees on matters affecting their health and safety;
- to provide and maintain plant, machinery and equipment which is safe, has been manufactured to a British, European or International standard, is regularly inspected, tested and maintained as appropriate; and that offers protection from danger by being suitably guarded (where appropriate). This would include such items as heating and hot water plant, kitchen equipment and appliances e.g. meat-slicer, powered cleaning equipment and portable electrical appliances;
- to ensure safe handling, use, storage and transport of articles and substances;
- to provide adequate information, instruction and training to enable staff and pupils to carry out their work activities in a healthy and safe manner, and to enable them to contribute positively to their own health and safety and that of others;
- to ensure all employees are competent to do their tasks;
- to prevent accidents and cases of work-related ill health;
- to make arrangements within the school for the reporting of all accidents and incidents to the LA;
- to make positive arrangements for fire evacuation, first-aid, supporting pupils with medical needs and other emergency situations;
- to provide and maintain a safe and healthy school building with safe access and egress, paying particular attention to the structure of the buildings, the electrical installation, drainage, glazing, maintenance of floors / corridors / playgrounds / steps / doorways / gates / fire escape routes and security arrangements which would minimise the risk of acts of violence;

St Paul's CE Primary School Health and Safety Policy

- to provide and maintain a safe and healthy working environment with effective management of illumination, temperature, ventilation, dust, smoke, fumes, noise, cleanliness and food hygiene and adequate protection against occupational disease and infestation;
- to provide and maintain adequate welfare arrangements such as eating, washing and toilet facilities and accommodation for clothing and personal belongings;
- to include aspects of child/personal safety within the curriculum which includes safety at home, on the road, around water areas and railway lines, fire / matches / fireworks, no talking to strangers, bullying, smoking and drug abuse and healthy eating;
- to ensure so far as is reasonably practicable, the health and safety of visitors to the school (see section 10 for example of identifiable visitors) and any other persons who may be affected by the acts or omissions of members of staff or pupils whilst taking part in school activities; and
- to review and revise this policy as necessary at regular intervals.

23.0 Medicines

Children who require support for medical conditions have the same rights of admission as other children. Children who have a disability which requires medical support are protected from discrimination by equalities legislation. Children with medical needs must be supported in school and can only be required to leave school for medical reasons if this is to receive emergency treatment or if their presence represents a serious risk to the health or safety of other children or school employees, for example if they are infectious. In these circumstances a head teacher/teacher in charge may send the pupil home after consultation with the pupil's parents. This would be an authorised absence not an exclusion. Detailed guidance is in DCSF Guidance 'Improving behaviour and attendance: guidance on exclusion from schools and PRU's', September 2008.

Children may require support for acute, short term and long term medical conditions. Acute conditions are for example severe asthma attacks or allergic reactions. Short term conditions are for example finishing a course of antibiotics. Long term conditions are for example controlled epilepsy, diabetes or asthma requiring daily use of an inhaler.

- The Headteacher will establish an effective management system which provides support to children with medical conditions.
- The Headteacher will communicate with parents, pupils and health professionals where necessary, for example in making an agreement to administer medicines or making a health care plan.
- The Headteacher will store medicines safely and where necessary provide training for personnel who administer or supervise administration of medicine.
